PALLET TRUCKS AND PALLET JACKS

WITH SERVICE, INTEGRITY, DEPENDABILITY

Improve Safety with Stop N' Hold[®] Pallet Jack Stop

- Save your load bar for your cargo.
- Avoid driver and carrier citations that could cost you hundreds of dollars!
- Secure your pallet jack with Stop N' Hold[®].

Our unique pallet jack stop was designed to improve pallet jack safety by eliminating freight and trailer door damage due to runaway pallet trucks. It's easy to use, easy to store, and it protects valuable freight and equipment from damage caused when a pallet truck drifts.

Our Stop N' Hold[®] pallet jack stop - also called a pallet jack chock - is ideal for trucking companies, freight carriers, and other material handling customers that need to safely secure their pallet truck.

Stop N' Hold[®] pallet jack stop is a lightweight (weighs about 3 pounds), easy to use pallet jack stop. Simply grab the handle set it on the floor and back the pallet truck onto the Stop N' Hold[®]. The pallet truck will stay where you put it, making it easy for any freight carrier to secure their pallet truck during transit. This innovative & inexpensive product is an ideal solution for the trucking and freight industry.

Did you know that Federal Motor Carrier Safety Administration's Cargo Securement Rules 393.106 says:
"Articles of cargo that are likely to roll must be restrained by chocks, wedges, a cradle or other equivalent means to prevent rolling. The means of prevention of preventing rolling must not be capable of unintentionally unfastened or loose while the vehicle is in transit."

Make it even more convenient by ordering a pallet truck with a Stop N' Hold Holder to store the pallet jack stop within reach.
